## THE ARID LAND LAW.

It Receives Further Consideration by the Senate.

POWELL IS ATTACKED AGAIN.

The Land Grant Forfeiture Act Passed by the House—Mr. Cannon Scores Mr. Bynum on His Meddlesomeness.

WASHINGTON, July 17.—The Senate resumed consideration of the Sundry Civil Appropriation Bill, the pending question being on an amendment to add an appropriation of \$300,000 for topographic surveys, with a provision that half that sum be expended west of the 101st meridian, and that the act of March 2, 1888, regarding irrigable lands, be repealed.

Mr. Call, of Florida, argued against the amendment. He said the repeal of the irrigation law would open an area of arid lands of 200,000 square miles to the operations of foreign syndicates who would seize much of it under the desert land and timber land laws.

Mr. Moody argued in favor of the amendment. He ridiculed the pretensions of Major Powell and said the region in which he (Moody) lived and for a hundred miles west of it which Major Powell designated as arid land was as fine agricultural country as any arid ever sown upon and there was not an acre of desert land in it and was as well watered as any part of New England or New York.

Mr. Reagan spoke in opposition to the amendment and against continuing the irrigation survey. Without finishing his remarks, Mr. Reagan yielded the floor for a motion to adjourn.

No progress has been made with the bill today.

Mr. Allison offered a resolution making it in order at any time to move that the debate on any amendment to the appropriation bills be limited to five minutes for each Senator, the question on such motion to be determined without debate. He remarked that such a resolution has been frequently adopted by the Senate. The Senate adjourned.

In the House.

WASHINGTON, July 17.—The House went into committee of the whole on the land grant forfeiture bill.

Mr. Holman, of Indiana, offered an amendment forfeiting all land not earned within the time limited by the granting act. Lost.

Mr. McKee, of Arkansas, offered an amendment directing the attorney general to bring suit against the persons holding lands opposite to the constructed portion of the railroad which was not constructed within the time specified in the act. The amendment was defeated, and the bill reported to the House.

Mr. Holman moved to recommit it with instructions to the committee on Public Lands to report it back with a provision forfeiting all lands not earned within the time limited in the granting act. Lost.

The bill then passed.

The bill, which is the Senate bill, will, with the House substitute therefor, forfeit all lands granted to aid in the construction of a railroad opposite to and contiguous with any portion of any such railroad not now completed. In the course of debate on the bill, Mr. Bynum referred to a colloquy between Messrs. Cannon and Houk, the other day, in which they referred to each other as nuisances. This reference was omitted from the record and Mr. Bynum called attention to the speech by Mr. Cannon during the Fifth Congress, deprecating the mutilation of the records. Mr. Cannon said he and Mr. Houk said things in the heat of debate which they agreed to forget in the future. Mr. Cannon scored Mr. Bynum sharply and expressed the opinion that he was the only representative in the House who had the heart on one hand of malignancy and on the other to obstruct himself where, under the parliamentary usage of the House, he did not belong. As to his speech in the Fifth Congress, that had been a controversy between Mr. Bynum and himself. Mr. Bynum had not come to him and agreed to strike out what had been said, but struck it out without consultation. Adjourned.

WORLD'S FAIR SITE.

Chicago Is Still Monkeying with the Proposition.

CHICAGO, July 17.—An ordinance granting the use of the lake front as a site for the World's Fair was passed to-night by the City Council. Amendments requiring the use of no less than 150 acres there, involving the filling in of at least 100 acres of the lake front at the expense of the city, were adopted. In some quarters it is predicted that the amendment will prevent the use of the lake front and that the Fair will be held entirely in Jackson Park, six miles from the center of the city.

LOS ANGELES FORGERS.

Some Prominent People Involved in Petty Business.

LOS ANGELES, July 17.—City Justice Walter C. Lockwood, Hon. James M. Dameron, a member of the State legislature, and J. S. Chadwick, a well known real estate operator, were arrested this afternoon on a charge of forgery. On Tuesday last a promissory note for \$110, in favor of B. F. Getchell, and endorsed by W. C. Lockwood and F. L. Wright, a civil engineer, was discounted at the Southern California National Bank and

the amount placed to Getchell's credit. Wright and Lockwood both disclaimed the endorsement of the note and the case was turned over to the District Attorney.

Warrants were issued for the arrest of Chadwick, Dameron and Lockwood. On examination before a Justice of the Peace, the case against Lockwood was dismissed. The cases against Dameron and Chadwick were continued until tomorrow.

MURDER WILL OUT.

An Old Portland, Oregon, Crime Believed to Be Cleared Up.

PORTLAND, Oregon, July 17.—The Evening Telegram today publishes an article claiming that the mystery surrounding the murder of Thomas Kneally, in this city on September 6, 1886, in the basement of the Villard Hotel, has been cleared up. Kneally was believed to have been murdered for his money. A clipping has been received from a Springfield, Mass., newspaper in which it is announced that Patrick H. Dolan, before his death, which occurred in the county hospital at Springfield, made a confession to the President that in the latter part of 1886 he and another man murdered a stranger in the basement of the Villard. That stranger is believed to have been Kneally.

FIRE AT RED BLUFF.

Quite an Interesting and Costly Conflagration Yesterday.

RED BLUFF, Cal., July 17.—At 1:45 o'clock this afternoon fire broke out in the restaurant in the Corrigan building and burned furiously. Darrough's drug store and the offices overhead, Dany's tailoring establishment, Ketnauer's restaurant and lodging house were completely destroyed by fire, which resisted the efforts of the entire fire department, reinforced by the railroad company's fire engine for more than an hour. At 3:30 p. m., the fire was under control, having been confined mainly to Corrigan's building.

A SMALL SENSATION.

GEORGE BECKERS IS ACCUSED OF SEDUCING A YOUNG GIRL.

A Story Comes from Los Angeles That He Ran Away to Arizona with a Lass Only 14 Years of Age.

George Beckers, the well-known horseman, has got himself into a peck of trouble at Los Angeles.

It will be remembered that Beckers left Phoenix several weeks ago, for California, taking with him his fine stallion, Forrest Clay, and several other horses. It seems from later developments that he had a companion on the trip.

In the Los Angeles Times of July 15 appears an article whereby it is made to appear that Beckers, about four months ago ran away to Arizona with a Los Angeles girl, only 14 years of age. The girl returned to Los Angeles with Beckers on his last trip, was found by the police and given into the keeping of her stepfather and mother. Mr. Patterson, the stepfather, tried to have Beckers arrested for seduction or rape, but Justice Lockwood refused to issue the warrant, there being no evidence to show the commission of either crime. The parents are determined to punish Beckers in some manner.

It is claimed that the pair returned to get the consent of the girl's mother to a marriage, but Patterson says she will not give it for the reason that he believes that Beckers has a wife and family in Arizona. Patterson was later met on the street by Beckers, who threatened to shoot him for meddling in the matter.

BLOOD POISONING.

The Bite of a Sick Child Causes a Physician Trouble.

A few days ago Dr. Scott Helm was called upon to attend the infant daughter of Mr. Kille, whose residence is about two miles northwest of the city. He found the child suffering from laryngeal diphtheria, and her mouth being filled with mucus, he cleansed it, using his forefinger for the purpose. The child bit the finger slightly, but little attention was paid to the hurt until Wednesday, when the finger began to swell. The inflammation spread until it embraced the whole hand and spread up the arm to the left ear, showing an unmistakable case of blood poisoning. Several brother physicians were summoned and since have been doing all in their power to alleviate the intense pain and to stop the progress of the virus.

The doctor was resting somewhat more easily last evening and the attending physicians report a more favorable condition.

Two Deaths at the Asylum.

Two deaths occurred Wednesday night at the Insane Asylum. John Ryan, sent to the institution from Kingman, Mojave County, died of a complication of Bright's disease and heart trouble. Later in the evening a quadroon woman from Pima County also passed away. She had been suffering from a severe fever. Everything possible was done by Doctor Toney to alleviate the pains of the two unfortunate, but death seemed inevitable. The interments were made yesterday at the asylum cemetery, at the northeast corner of the grounds. Without exception all the other patients are in a physically healthy condition.

The District Court.

The Horne mining suit took up nearly all of yesterday in the District Court. After argument by counsel and the presentation of additional testimony, the Court released the defendant from contempt and took the injunction application under advisement.

Argument was presented in the case of Farmer vs. the Directors of the Noray Sewel, and the matter was taken under advisement.

## SPORTS OF THE DAY.

Another Record Smashed at Monmouth Yesterday.

BANQUET'S SPLENDID RECORD.

Other Sporting Events the World Over—What Was Done in the Field of Base Ball by the Crack Clubs.

MONMOUTH PARK, July 17.—The event of the day was the third race, the contest for the Stockton stakes, for which Banquet, Tournament, Sir John and others were entered. Banquet won in 2:03 3/4, with Hearst's Tournament second.

This is the fastest time ever made in this country for a mile and a fourth. The best previous time being Salvatore's 2:05, made at Sheephead Bay in March, with Tenny.

Banquet is a bay gelding, three years old by Ray, out of Deer, dam Ella T. and is owned by Congressman W. L. Scott.

Sixth race, three-fourths of a mile—Beauty won, Foxford second, Baughum third. Time 1:15.

A Dispute as to the Time.

MONMOUTH PARK, July 17.—According to a gentleman who held watches on the Monmouth race track, today, the record of 2:05, made by Salvatore for a mile and a quarter, was broken by a second and a quarter by Banquet, the winner of the Stockton stakes today. Doubt as to the correctness of this time is expressed by many of the witnesses of the race. It is argued that the timers did not catch the start before the horses had run a sixteenth. The race was on a straight course and the horses, when they stood at the post could not have been seen with the naked eye, but with the aid of a glass they could just be distinguished, but a track of dust interrupted even the view with glasses. The official time was taken.

A Great Day at Chicago.

WASHINGTON PARK, July 17.—The feature of the day was the Hyde Park stakes worth about \$11,000, the richest event of the West, outside the American Derby. The track was fast.

Third race, Hyde Park stakes, two-year-olds, three-quarters of a mile—Baydog won, Kingman second, Rey del Rey third. Time 1:16.

Fourth race, one mile and seventy yards—Heron won, Woodcraft second, Prince Fortune third. Time 2:10.

Fifth race, all ages, mile and a furlong—Barney won, Ballyhoo second. Time 2:20.

A Kick Against Hawkins.

CHICAGO, July 17.—Much dissatisfaction has been expressed by horsemen from the South and elsewhere with the way in which things have been going at Washington Park during the present meeting. This dissatisfaction is chiefly directed toward the running of the Chicago stable owned by Geo. Hawkins, a well known gambling house keeper. His horses have been "running in and out" in a remarkable manner and the papers of the city which began to express mild astonishment have come to express made that unless Hawkins is expelled none of the Southern stables will be represented here next season.

Captain Wetheren and his Crew Under Investigation.

ST. PAUL, July 17.—Captain Wetheren and six of the crew of the steamer Sea Wing have arrived here. The government inspectors are conducting an investigation behind closed doors. Captain Wetheren and Clerk Niles in a statement concerning the disaster say that when the storm arose the steamer was completely and instantly overturned. The captain was at the wheel and did all in his power to keep the boat headed into the wind, and remained in the pilot house until completely submerged. The engineer stood at his post until the water filled the engine room. Not a drop of liquor was on board, and none of the crew drank a drop that day. When the boat left Lake City the storm seemed to have passed.

## THOSE ENGLISH SHIPS.

They Are Not Going Up Into Behring Sea.

THE ADMIRAL DISTINCTLY SAYS.

He Regards the Subject One Purely of Diplomacy and Not by Any Means One for Ships of War.

VICTORIA, B. C., July 17.—H. M. S. Warspite, the flagship of the North Pacific squadron, with Rear Admiral Hatnam aboard, arrived here this afternoon. The Admiral was received with a salute fired by H. M. S. Champion. He was seen on board the flagship by a correspondent, who interviewed him chiefly in regard to the suggested movement of warships to protect Canadian vessels in Behring Sea. The Admiral had not yet had an opportunity to complete the perusal of a mass of correspondence that awaited him here, but he stated emphatically that he had as yet received no instructions to send any of the fleet to the North to protect British vessels from seizure by American cutters, or to retake any that might be seized in Behring Sea.

He considered the matter principally, from what he had read of it in the press, one of diplomatic negotiation, and he had yet to learn what new phase had presented itself that would suggest the possibility of warships being referred to take a hand in the adjustment of the difficulty.

Leaving Fort McDowell.

The evacuation of Fort McDowell has been commenced. The ten-horse team of Mike Graham came in yesterday from the post, loaded with the effects of the hospital, which are to be shipped from here to Fort Lowell. The only troops at McDowell, a company of infantry, have been ordered off across Reno mountain, to head off the Indians who killed Baker, and the camp is almost deserted. The transfer of military material and stores will, in all probability, take until August 15th, at about which time the buildings will be turned over to the Interior Department for use as an Indian school.

One company of Indian scouts from San Carlos are now upon the trail of the murderers, and the company of infantry from McDowell is ordered to assist in the chase.
